BUSINESS CONSULTING EXPERIENCE

Kapacitet (2020-present)

CEO of Kapacitet – taking over the leadership from the co-founder & owner. Kapacitet is a hands-on engineering design house delivering impacts for corporate labs and startups.

- Professionalized Kapacitet and navigate in a challenged market
- Developed and deliver according to Strategy 2021-2024 incl. Profit sharing
- Driving partnerships with e.g. TechStation Invest, DTU Futurebox and Develco
- Digital transformation e.g. AI supporting sales pipeline, IT Cloud and ERP system

Valcon Design & Valcon (2012-2017)

As COO professionalized Valcon Design based on scalability, ready for growth. Delivered complexity leadership to a broad variety of clients at C-suite level. Key achievements:

- Transformed Valcon Design capabilities into a product service line, Six Theta® Design used widely within the industry and especially Automotive in Germany
- Set direction and implemented governance structure, project and sales board meetings to professionalize and obtain scalability of Valcon Design
- Developed and implemented framework & methods for robust portfolio design reducing business complexity for 30+ SMEs growing their business value and profit
- SMEs achieved a common language across sales, R&D & operations, 30+% fewer item numbers, reduced cost, shorter time to market and shorter delivery time

LIFE SCIENCE & MEDICAL DEVICE EXPERIENCE

Novo Nordisk & NNE (2002-2012)

Held various international positions within R&D management, project execution and business development addressing client and end-user needs.

- 2011-2012: Head of project management & global resource management, NNE
- 2010-2011: Head of global business development, area of 300+ FTEs, NNE
- 2008-2010: Business manager for automation & IT project management, NNE
- 2004-2007: Head of prefilled devices used for Novo Nordisk blockbuster drugs
- 2002-2004: Manager for needles & prefilled devices, R&D, Novo Nordisk

INDUSTRY, AUTOMOTIVE & PLASTICS EXPERIENCE

DBI Plastics (2017-2020)

As CTO professionalized DBI Plastics driving complexity leadership across sales, technology and operations. Transformed a classic supplier business model into product-service mindset.

- Standardization of product portfolio & 70% higher project portfolio value in 1 year
- Digitalization, complexity leadership and global policy deployment across DBI driving profitable growth through involvement of the organization
- Engaged in sustainability business networks, incorporated sustainability in the strategy, developed and launched first sustainable product line

Nilfisk & GN Store Nord (1990-2002)

Held various positions within R&D. 3.5 years as Development engineer at GN Store Nord developing handheld electronics. 3 years as Project manager and 5.5 years as R&D manager for Industrial & consumer vacuum cleaners at Nilfisk. Local innovation team, global partnerships and in-house/outsourced production. Nilfisk Compact Vac awarded as 'Best buy'.
